

ARTIST INFORMATION SHEET

Artist Geraldine Larson

Philosophy I picked my symbol to be an Archangel. She sensual (as my sensual art series). She is beautiful inside and out. She is directly connected to the creative force. She helps and protects those who desire to become a better human being and acts as their guiding light.. She looks for pure intentions. She is powerful. She is passionate and compassionate. She honors those who strive for greatness in all human ways (spiritually, physically, mentally, emotionally, intellectually).

Style Realism.

I use fine brush strokes saturated color, luminosity and passion.

I attended Steven Bull School of Fine Art and I am self taught. .

Prices \$450 to \$10,000
